

Blood Storage Cabinets

The Blood Storage Cabinets maintain precise temperature conditions for safe storage of blood bags. They feature a programmable $4 \pm 1^{\circ}\text{C}$ control system, available in multiple capacities, with durable construction and digital monitoring for reliable performance.

Specification	
Temperature	$4 \pm 1^{\circ}\text{C}$ (Programmable)
Capacity	120 / 200 / 400 / 600 Blood Bags
External Body	Powder Coated 18 SWG MS Sheet
Internal Chamber	SS 304 Grade Sheet
Control System	4.3" Touch Screen HMI with chart display & data storage
