

Platelet Incubator cum Agitator

The Platelet Incubator cum Agitator provides precise temperature control at +22°C for optimal platelet preservation. Its durable construction and smart touchscreen interface ensure reliable performance. Available in multiple capacities, it features a smooth agitation system for uniform platelet mixing.

Specification	
Temperature	+22 ± 2°C (Programmable)
Capacity	60 / 120 Platelet Bags
External Body	Powder Coated 18 SWG MS Sheet
Internal Chamber	SS 304 Grade Sheet
Control System	4.3" Touch Screen HMI with chart display & data storage
Agitation	Single or Double Agitator System (72–75 RPM)
