

Model Available:- X1 PTB-12, X2 PTB-12

Technical Features

- Inner chamber made SS 304 Stainless steel,
- outer body made CRCA sheet 18 g corrosion resistance powder quoted
- Microprocessor Controlled/touch screen,
- Temperature Control
- Range at least 37⁰C to +50⁰C.,Adjustable in 1⁰C intervals.
- Microprocessor/ Touch Screen controlled
- able to thaw 12 plasma bags (FFP/Apheresis)
- operating at a pre set and precise temperature of 37 °C
- deep thawing chamber with a stirrer
- Quick thawing Time less than 20 minutes
- Quick Drain Time
- Manufacturing unit compliant with ISO 13485:2003, ISO 9001 9001:2008, CE approved
- Equipment compliant with Electrical safety specification of IEC 60601-1
